

# All-in-One, Customizable Platform for Observations and Evaluations— *Now In SchoolStatus*

## TeachBoost Pro Works the Way You Do

TeachBoost Pro’s observation and reporting tools make it easy for administrators to meet evaluation requirements, leverage data to personalize PD, and support educators in improving their practice.

## Customize Rubrics, Forms, and Observation Cycles

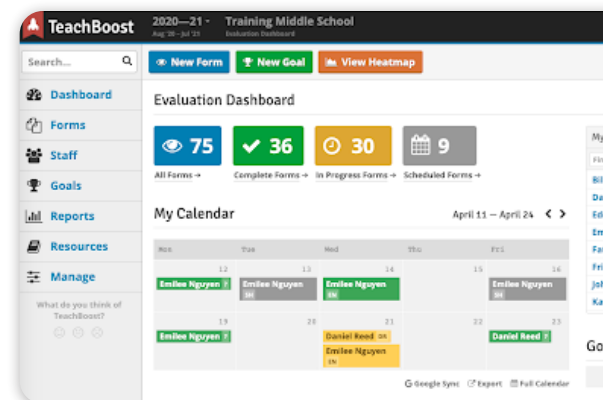

TeachBoost Pro’s flexible, framework-agnostic observation tool incorporates the processes and practices that are already working in your schools, personalizing the experience and ensuring a seamless transition to the platform. The Sketch Observation tool lets you:

- Capture time stamped notes on any device
- Connect evidence to your rubric
- Give rubric-aligned feedback

## Save One Half-Day Per Week in Precious Time

With TeachBoost Pro, you and your instructional leadership team will save significant time with observations and data management. Administrators that use Pro reported conducting double the number of observations in half the time. Pro will save up to a half-day per week by providing:

- Easy calendaring and scheduling
- Centralized meeting notes
- Safe place to store and access artifacts

“Before TeachBoost, professional learning and other coaching supports were not connected to what educators needed to grow as professionals.”

**-Josh Snyder, Director of Learning, Wahoo Public Schools**

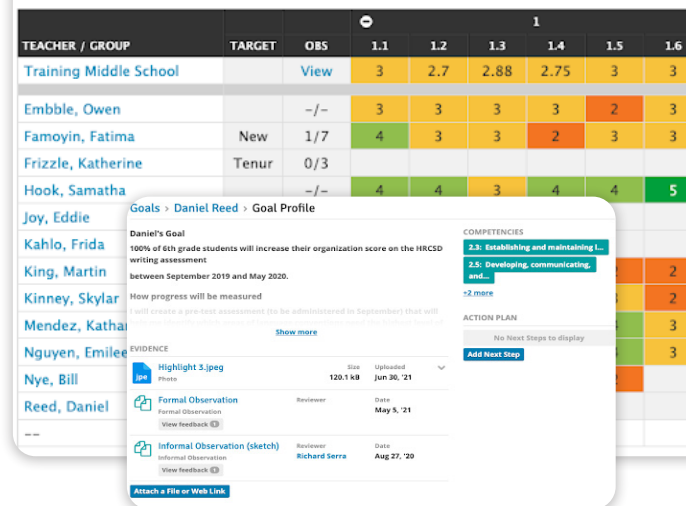

# Document, share, and reinforce great teaching practices.

## Plan and Differentiate Professional Learning Based on Data

One-size-fits all professional learning doesn't work. Put your observation data to work and share relevant resources based on the notes, goals, and action plans. Help teachers take immediate steps toward:

- Improving their practice with rapid feedback
- Flexible sharing
- Powerful access controls

### Reports > Heatmap

## Share Feedback Quickly via Email

Teachers appreciate fast and high quality feedback aligned to their needs.

- Requires no login
- Allows for easy printing and e-signatures
- Facilitates conversations about growth and development

Domain 3: Instruction

Strengths  
+ Add Next Step  
Questions require students to make connections to prior knowledge. Questions are directed at small groups of students. Students are required to demonstrate how they know.

Growths  
+ Add Next Step  
The net result is an environment where all students feel valued and are comfortable taking risks.

“The way we’ve set up the TeachBoost platform and use it across all 19 schools has led to new interaction amongst educators at all levels.”

-Nick Pillsbury, Ed.D., Senior Manager, Evaluation and Talent Data, Camden City Schools
